"He that writes, or makes a feast, more certainly invites his judges than his friends; there is not a guest but will find something wanting or ill drest."

1873--4.

SYRACUSE, N. Y.
ANDREW BOYD, 16 AND 17 GRANGER BLOCK.

—0—
POTTSVILLE, PA.
W. HARRY BOYD, 126 NORWEGIAN ST.

Entered according to Act of Congress, in the year 1873, by ANDREW BOYD AND W. HARRY BOYD, in the office of the Librarian of Congress, at Washington.

Preliminary Egotism.

As the architect, after long anxious labor, views with satisfaction the completion of a pet-task he has worked at early and late to accomplish, and, amid the assembled crowd gathered to gaze upon the work of his genius, he stands waiting for something more—THEIR APPROBATION AND APPLAUSE—to him the test of his success; so the publishers of this volume after long weeks of earnest endeavor to make a work satisfactory to themselves and acceptable to the public, now send it forth conscientiously completed on their part. Yet they await a larger judgement and appreciation of their efforts—the FAVOR AND APPROBATION OF THEIR PATRONS. If this be granted it will nerve them to make still larger trial again, with renewed effort to still farther please.

There is no little pleasure felt in presenting a Directory of so great a commonwealth. It is the only instance of an American State founded without bloodshed. Wm. Penn and his peaceful associates conciliated the natives by the purchase of their territory, and by good will and kindness secured their friendship during a period of 70 years. In her metropolis first met the American Congress. It stands *first* among the States in the abundance of her coal and iron. It stands *second* in population, and ranks among the first in the extent and variety of her manufactures.

Philadelphia is to be honored as the city in which the Centennial Celebration shall be held in July, 1876. Pennsylvania may well feel proud of this National distinction. The wires will carry the news to all parts of the world on that day of jubilee, "*Peace on earth, good will to men.*" And the Proclamation, "*Liberty throughout all the land to all the inhabitants thereof,*" will again be rung out from the old bell, now cracked, that sang out its thrilling chorus in Independence Hall a hundred years ago. God grant a united happy people for that glorious period.

In place of the 100 Cities and Towns promised, we have given 107.

To all who have aided and encouraged us, we are grateful.

SEELEY'S Hard Rubber Trusses, Supporters, PILE PIPES, ETC.

I. B. SEELEY'S HARD RUBBER TRUSSES, SUPPORTERS, Etc.

Comfortable, Light, Cleanly & Durable.

Never Rusts, Breaks, nor Soils.

STEEL SPRING COVERED WITH HARD RUBBER.—Used in Bathing.

Fig. 1.—Adult and Infants' single Truss. "Riggs" patent Pad. Nos. 3 and 8 Pads of this figure (convex plain, convex ball and socket, set screw) are applicable on Fig. 1 and 2 style Truss. Fig. 2.—Double Truss. Fig. 3.—Truss with strap—applies on side of rupture; pad reversible with set screw. Fig. 4.—Same as Fig. 3, with ball and socket attachment—set screw. Fig. 5.—Double Truss—pad adjustable. Fig. 6.—"Hood" pattern Truss. Fig. 7.—Umbilical Truss. Fig. 8.—Hard Rubber Pile Pipe. Fig. 9.—"Prolapsus Ani" Supporter. Hard Rubber Pad and Springs. Fig. 10.—Hard Rubber Abdominal Supporter.—Lightest, neatest and most effectual mechanical Support known.

SEELEY'S Hard Rubber Truss **Cures Rupture**, retaining the most difficult with comfort, safety and ease. The fine steel being coated with Hard Rubber enables the spring to be *controlled in power, shaped to form*; being impervious to moisture, will never rust, break, limber, chafe, nor move from place; *always clean and good as new*.

Ruptured Persons having suffered the misery, danger and annoyance of sour, rusty, chafing, badly adjusted Instruments, in appreciation of their merits, *hail them as a Comfort, Blessing and Relief*.

200,000 are now in use throughout the Country. Physicians and Surgeons use and recommend them to their patients, and highly approve of their *special* advantages—cleanliness, lightness, safety, durability and perfect adaptation to any peculiar case or form.

Seeley's Hard Rubber ABDOMINAL SUPPORTER, a relief and cure for Female, Uterine or Abdominal Weaknesses, Corpulency or General Debility—Very light and comfortable.

Seeley's Hard Rubber PILE PIPE, for the treatment and cure of Piles, affording, by direct application, immediate relief.

With 15 years' practical experience in the business at my different establishments in the cities of Chicago, St. Louis, Boston, Philadelphia and New York, under patronage of *their leading Surgeons and Practitioners*, to whom I shall ever feel grateful for their kind appreciation and aid in the rapid introduction of my appliances, and having met with over 20,000 cases of *Hernia* in its various forms, I feel confident in assuring *correct* and *skillful* application, with *fair* and *honorable* dealings to all, without *untruthful* representations. All goods guaranteed as represented. Also,

"Seeley's Abdominal and Kidney Protectors,"

"The Philadelphia Abdominal Belt."

The choicest and best collection of *Trusses, Abdominal Supporters, Silk and Thread Elastic Body Belts, Stockings, Knee Caps, Anklets and Suspensory Bandages* for the *relief and cure of RUPTURE, Abdominal Weaknesses, Corpulency, Varicose Veins, Weak, Swollen or Ulcerated Limbs*, in stock, and Manufactured to order for Special Cases; also Crutches, Shoulder-Braces, Cheap Trusses, etc.

Correct adjustment, with Private Apartments for Ladies and Children. Experienced Lady in attendance.

PATENT

STREET LAMP.

LIGHT.

Markland's Patent Street Lamps will give more light, save the glass from being broke in the winter by the wet and changeable weather of heat, cold and snow, by its construction, also show the names of the Street more legible, as there is a place prepared to receive the same in the largest part of the Lamp, as can be seen by cut, it will prove a great saving to any city who may adopt it, besides it is more handsome than any Street Lamp now in use. Orders solicited from City authorities, Railroad and other Corporations, Hotels, &c.

OLD STYLE STREET LAMP,

With Name Plate on it.

City Authorities Take Notice.

Place the names of your Streets upon your Lamps, so we may find our way by night and by day. Use Markland's Patent Metallic NAME PLATE, as it will not get destroyed by the breaking or washing of the glass, it is easily removed for the repairing or washing, the same being a combined frame, it cannot get lost as when in sections it can be read in going either way by night or day, and it will stand all weather. I refer you to the following Cities who have adapted the same:

Philadelphia, Pa., Wilmington, Del., Reading, Pa., Beverly, N. J., Providence, R. I.

N. B.—Orders Solicited. Agents Wanted in every City and Town. For Circulars, &c., address, THOS. T. MARKLAND, JR., Patentee and Manufacturer, Office, 1023 South 10th St., Phila., Pa. Metallic Numbers supplied to Cities, Churches, Theatres, &c., name and number combined or separate.

A SPRING IN THE HOUSE.

Markland's Patent Spring House,

Water Cooler, Filter & Refrigerator Combined.

It is the only one fit to be used, as it is made strictly on scientific principles, as can be seen at a glance by the cut. The ice is not in the water you drink, and the meltings of the ice is retained in the refrigerator from day to day. In it is placed vessels containing butter, milk, &c. On the shelves, all around the ice, may be seen meat and all solid food. The melted ice water absorbs all smell, hence the victuals are sweet, and one does not taste of the other; and the water you drink is as pure as the spring, as it is not mixed. Parties who have used them will have no other.

TIME, LABOR AND FILES SAVED BY USING MARKLAND'S

Patent Stationary and Adjustable Saw Gummer and Sharpener,

Harvester Cutters and General Tool Grinding Machines

KEYSTONE SAW WORKS,

PHILADELPHIA, PA., April 20, 1868.

I am pleased to be able to state that I consider Markland's Patent Saw Gummer the best thing of the kind in the market, and that my men have tried it and like it better than anything they have yet used.

HENRY DISSTON.

SOUTHWARK FOUNDRY,

PHILADELPHIA, PA., June 19, 1868.

We are using one of Markland's Patent Sharpeners and Gummers, and find it indispensable for keeping our saws in order. It gives us complete satisfaction, and accomplishes all that is claimed for it. Yours, truly,

MERRICK & SONS.

JOHN BIRKBECK, Supt.

NEW YORK, September 25, 1868.

After giving Markland's Patent Saw Gumming and Sharpening Machine a fair trial, I found the same superior to any machine of the kind yet invented, and can recommend the same in the highest manner.

CHARLES L. MAURER,

Cabinet Ware Manufactory, 117 Prince st.

NEW YORK, September 23, 1868.

After giving Markland's Patent Saw Sharpening and Gumming Machine a fair trial, I take occasion to state it has proven entirely satisfactory in every respect, and I do not hesitate to recommend it as a first-class Machine.

Respectfully yours,

STEINWAY & SONS'

Piano Manufactory,

109 and 111 East 14th street.

PHILADELPHIA, PA., May 14, 1868.

Having been induced to put in our Vat and Tank Factory one of Markland's Patent Saw Sharpeners and Gummers, take pleasure in saying that we are perfectly satisfied with it. We find it to be one of the most economical machines in the establishment.

The United States.

The United States of America, with its Ter-
ritories, extends from the Atlantic west to the
Pacific Ocean, occupying the middle division
of North America being bounded on the
north by the British possessions, and on the
south by the Gulf of Mexico and the Republic
of Mexico. It lies between 25 deg. and 45 deg.
of north latitude, and bet. 66 deg. 5 min. and
125 deg. west longitude from Greenwich; or
between 10 deg. 1 min. east and 48 deg. west
longitude from Washington city. Its greatest
length from east to west is estimated
at 3,000 miles, and its greatest breadth
from north to south 1,700 miles; contain-
ing an estimated area of 3,250,000 square
miles. It has a frontier line of about
10,000 miles, of which 3,500 miles is along the
Atlantic coast and Gulf of Mexico, and 1,620
miles on the Pacific Ocean and Straits of
Juan de Fuca. Its surface embraces about

one-third of North America, including the West India Islands, being about one-twentieth of the land of the whole earth. It was first discovered to the inhabitants of the Old World by John Cabot, A. D., 1497, being five years after the landing of Columbus at St. Salvador.

The first permanent English settlement in the United States was at Jamestown, Virginia, in 1607*, which continued an English colony till the Declaration of Independence, July 4, 1776. After a war of seven years' duration, peace was made, and independence acknowledged by treaty with England in 1783.

The articles of Confederation were entered into in 1777. The present United States Constitution framed in 1787, went into operation March 1st, 1789, after being approved of by the thirteen original States of the Union. Louisiana, comprising the States and Territories now belonging to the United States west of the Mississippi was purchased of France in 1803, and Florida of Spain in 1819. Texas was admitted into the Union by "Joint Resolutions" of Congress, passed March 1st, 1845. New Mexico and Upper California, including Utah, were acquired by treaty with Mexico, ratified in 1848. Arizona was acquired by treaty with Mexico, ratified in June, 1854.

In the District of Columbia, originally formed by cessions from Maryland and Virginia,* is situated Washington City, the United States seat of government, being first occupied in 1800. The District and Capital are exclusively under the jurisdiction of the Federal Government. Congress meets on the first Monday of December in every year, unless otherwise directed by law.

The population of the United States at the time of taking the first census, in 1790, was 3,929,328; in 1800, 5,309,758; in 1810, 7,239,903; in 1820, 9,638,166; in 1830, 12,866,020; in 1840, 17,068,666; in 1850, 23,191,876; in 1860, 31,443,321; in 1870, 38,555,983.

The slave trade was prohibited by act of Congress after Jan. 1, 1808. In 1818 Congress declared the traffic to be piracy. Slavery was abolished in the District of Columbia in 1862, by act of Congress; in the United States, by Proclamation of Abraham Lincoln, January 1, 1863.

Main, Vermont, Louisiana, Kentucky, Tennessee, Florida, Texas, and fourteen Territorial Governments, have been organized and converted into States since the Revolution, making in all (in 1867) thirty-seven States,† together with nine organized Territories.

Alaska, or Northwestern America, ceded to the United States by the Emperor of Russia, in consideration of \$7,200,000, was taken possession of October 18, 1867. It contains an estimated area of 400,000 square miles. Population about 75,000. Capital, New Archangel.

STATES.

Maine was settled in 1625 by the English; belonged to Massachusetts till 1820, when it was admitted into the Union as a State; capital, Augusta. The elective franchise rests on a residence in the State of three months next preceding any election, for any citizen of the United States except paupers and per-

sons under guardianship. Area, 35,000 square miles. Population in 1860, 628,279; in 1870, 626,915.

New Hampshire.—Settled in 1623 by the English; acceded to the Union, June, 1788, being one of the original thirteen States; capital, CONCORD. Every male citizen of 21 years of age, except paupers, has the right to vote. Area, 8,280 square miles. Population in 1860, 326,073, in 1870, 318,300.

Vermont.—Settled in 1763 by English, chiefly from Connecticut, under grants from New Hampshire; admitted into the Union in 1791; capital, MONTPELIER. One year's residence gives the right to vote to any citizen of the United States who will take an oath of allegiance. Area, 10,212 square miles. Population in 1860, 315,098, in 1870, 330,031.

Massachusetts.—Settled in 1620 by English Puritans, who landed at Plymouth; acceded to the Union in February, 1788; capital, BOSTON. One year's residence in the State, and payment of a State or county tax, gives the right to vote to every male citizen of 21 years and upward, except paupers and persons under guardianship. Area, 7,800 square miles, being the chief manufacturing and most densely populated State in the Union. Population in 1860, 1,231,066; in 1870, 1,457,351.

Rhode Island.—Settled in 1631 by English from Massachusetts; acceded to the Union in May, 1790; capitals, PROVIDENCE and NEWPORT. By the constitution recently adopted, the qualifications for voting may be stated, omitting details, to be a freehold possession of \$13; or, if in reversion, renting for \$7, together with a year's residence in the State and six months in the town; or, if no freehold, then two years' residence in the State and six months in the town, and payment of a dollar of tax, or militia service instead. Area, 1306 square miles. Population in 1860, 174,620; in 1870, 217,353.

Connecticut.—Settled in 1633 by English from Massachusetts; acceded to the Union in January, 1788; capitals, NEW HAVEN and HARTFORD. Residence for six months, or militia duty for the year, or payment of State tax, or a freehold of the yearly value of \$7, gives the right to vote. Area, 4,750 square miles. Population in 1860, 460,147; in 1870, 537,454.

New York.—Settled in 1613 by Dutch; submitted to the English in 1664; retaken by the Dutch in 1673; restored to the English in 1674; acceded to the Union in July, 1788; being the most populous, wealthy and commercial State of the Union; capital, ALBANY. One year's residence in the State and six months in the county gives the right to vote. Area, 46,000 square miles. Population in 1860, 3,880,735; in 1870, 4,382,758.

New Jersey.—Settled in 1627 by Swedes; conquered by the Dutch in 1665; submitted to the English in 1664; acceded to the Union in December, 1787; capital, TRENTON. One year's residence in the State gives the right to vote, except to paupers, &c. Area, 8,320 square miles. Population in 1860, 672,035; in 1870, 906,096.

The Virginia part, constituting the County of Alexandria, has been re-annexed to the above State.

† West Virginia was organized by act of Congress, approved December 31, 1862.

Pennsylvania.—Settled in 1682 by English; acceded to the Union in December, 1787; capital, HARRISBURG. One year's residence in the State and ten days in the election district, and payment of a State or county tax assessed ten days prior to an election, gives the right to vote; except that citizens between 21 and 22 years of age need not have paid a tax. Area, 47,000 square miles. Population in 1860, 2,906,115; in 1870, 3,521,791. Ranking as the second State in wealth and population.

Delaware.—Settled in 1627 by Swedes; granted to William Penn in 1682; separated in 1703; acceded to the Union in December, 1787; capital, DOVER. Qualification of voters same as in Pennsylvania. Area, 2,120 square miles. Population in 1860, 112,216, in 1870, 125,015.

Maryland.—Settled in 1634 by English; acceded to the Union in April, 1788; capital ANNAPOLIS. One year's residence in the State and six months in the county gives the right to vote to every male citizen. Area, 11,124 square miles. Population in 1860, 687,049, in 1870, 780,894.

West Virginia.—This new State, detached from the old State of Virginia by popular will, was admitted into the Union by act of Congress, approved December 31, 1862. Capital, WHEELING. The new State comprises forty-eight counties, lying west of the Allegheny mountains; having an estimated area of 24,000 square miles, and a population, in 1860, of 350,599, in 1870, 442,014. It is rich in iron, coal, salt springs, etc., and has a large amount of fertile and arable lands lying on the east bank of the Ohio river, and in the valleys of the Allegheny mountains, together with a mild and salubrious climate, well adapted for free white labor.

Virginia.—Settled in 1607 by English, being one of the most important of the thirteen original States; acceded to the Union in June, 1788; capital, RICHMOND. A freehold in possession, or in the occupancy of only a tenant at will or sufferance, worth \$25; or the reversion of a freehold to vest on the termination of a life estate, and worth \$50; or a leasehold of the yearly value of \$20; for a term not less than five years; or the payment of State tax within the year by a housekeeper who is the head of a family, and has a year's residence, gives the right of voting to every citizen, except paupers, felons and persons in the army and navy not having commissions. Area, 61,352 square miles, including West Virginia. Population in 1860, 1,596,318, in 1870, 1,225,163.

North Carolina.—Settled in 1650 by English; acceded to the Union November 21, 1789; capital, RALEIGH. Every free man of the age of 21 years and upwards, who has resided one year in any county within the State, may vote for a member of the House of Commons, but must own fifty acres of land to vote for a Senator. Area, 50,700 square miles. Population in 1860, 992,622, in 1870, 1,071,361.

South Carolina.—Settled in 1789 by English; acceded to the Union, May 23, 1788; capital, COLUMBIA. Voters, residents of the State two years, who have paid a State tax, and resided six months in the district where voting. Area, 34,000 square miles. Population in 1860, 703,708, in 1870, 705,606.

Georgia.—Settled in 1733 by English; acceded to the Union, January 2, 1788; capital, MILLEDGEVILLE. Voters, citizens of the State and six months resident of the county where voting, and have paid taxes for the year preceding the election. Area, 58,000 square miles. Population in 1860, 1,057,286, in 1870, 1,184,109.

Florida (East and West.)—Settled early by the Spaniards, being more than 200 years under Spain; was ceded to the United States in 1819; it was admitted into the Union March 3, 1845; capital, TALLAHASSEE. Area, 59,268 square miles. Population in 1860, 140,425, in 1870, 187,748. This State, is tropical in its climate and products.

Alabama.—Settled in 1713 by French, admitted into the Union in 1819, and is the chief cotton growing State of the country; capital, MONTGOMERY. First-Class Work at Reasonable Prices.

1873

A decorative border at the bottom of the page featuring grapevines with leaves and clusters of grapes, mirroring the style of the top border.

Standard American Billiard Tables.

New Design, Patented June 6, 1871.

Entered, according to Act of Congress, by H. W. Collender, in Office of Librarian of Congress, Washington, 1871.

The above design is made in Walnut, Rosewood, Hungarian Ash, or other woods.

The STANDARD AMERICAN TABLES are furnished with the unrivalled PHELAN & COLLENDER COMBINATION CUSHION, demanded by all intelligent amateur players, and used by experts in all their important test games. The characteristics which have given these Tables a world-wide reputation are

First-Class Workmanship, Uniformity of Construction and Durability.

Everything appertaining to Billiards kept constantly on hand. Send for illustrated Circular and Price List. Address, Box 1,847, New York Postoffice.

H. W. COLLENDER,

Successor to Phelan & Collender, 738 Broadway.

You ask WHY we can sell First Class 7 Octave Pianos for \$290? We answer—It costs less than \$300 to make any \$600 Piano sold through Agents, all of whom make 100 per ct. profit. We have no Agents, but ship direct to families at Factory price, and warrant 5 years. Send for illustrated circular in which we refer to over 500 Bankers, Merchants, &c. (some of whom you may know), using our Pianos, in 44 States and Territories. Please state where you saw this notice.

"WEBER"

PIANO-FORTES.

The Weber Piano-Fortes have become the FAVORITE INSTRUMENTS of the ARTISTIC World, and are endorsed by every Musical Authority as the

BEST PIANO MANUFACTURED.

The special adaption to the human voice has induced every celebrated Singer to use them in preference to any other.

The Weber Upright Piano has no Rival.

MAD. ARABELLA GODDARD says of it, "I certainly have not seen any instrument in America which approaches them even."

JOHANN STRAUSS, who PURCHASED one for his Music Room in Vienna, says, "I assure you (MR. WEBER,) I have never yet seen any pianos which equal yours, and how so small an instrument can contain a perfect Orchestra surprises me."

The Sale of the WEBER PIANO-FORTE has increased in four years 368 per cent. as per Internal Revenue Returns, while the other Piano-Forte Houses have increased but 20 to 25 per cent.

Prices as Reasonable as consistent with Thoroughness of Workmanship.

Allentown, Lehigh Co.

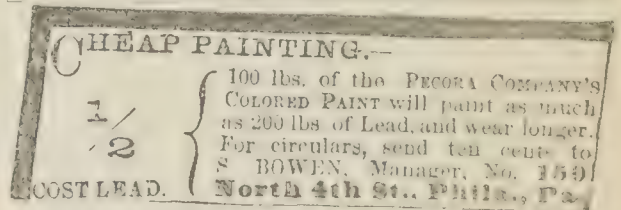

Is on the Lehigh Valley, Lehigh and Susquehanna and the East Pennsylvania branch of the Philadelphia and Reading Railroads. The canal of the Lehigh Coal Co. passes through the town. It is fifty-nine miles from Philadelphia and contains a population of 15,000. It is the county seat, and is pleasantly situated on an eminence on the south bank of the Lehigh river: the streets are wide and regularly laid out, and lined with substantial buildings. In the town and vicinity are many flourishing mills, large arthracite furnaces, etc.

Chambersburg, Franklin Co.

Is on the Cumberland Valley Railroad, 52 miles from Harrisburg, and 22 from Hagerstown. In 1864 the town was nearly destroyed by fire at the hands of the confederates, who entered the place about daylight on the morning of July 30th; it was, however, promptly rebuilt by its enterprising people and it is now a handsome thriving place of 6,500. It is the center of an active trade, being surrounded by a large and populous agricultural district.

Easton, Northampton Co.

Is the western terminus of the Central R. of N. J., south-eastern terminus of the Lehigh & Susquehanna Division and Lehigh Valley, and by a bridge 500 feet long across the Delaware river, connecting the city with Phillipsburg, N. J., a station on the Belvidere & Delaware R. R., and also by a chain bridge with South Easton. The town is well laid out and lighted with gas. It is a flourishing town; has abundant water power; is the seat of extensive manufactories, and is surrounded by a beautiful, rich and highly cultivated country, which abounds in iron ore and limestone.

Erie, Erie Co.

Is on the Lake Shore & Michigan Southern Railroad, is the northwestern terminis of the Philadelphia & Erie Railroad, and the northern terminis of the Erie & Pittsburgh Railroad. The Erie extension canal connects it with the Ohio river. It is 88 miles from Buffalo and 148 miles from Pittsburgh. It is on the Lake of the same name, and has a splendid harbor. It is an important place of outfit for vessels, and remarkable for its flourishing trade. Population, over 20,000. The Philadelphia & Erie Railroad, one of the best managed roads in the country, is the short-

est road between this section of country and Philadelphia, Baltimore or Washington; traverses the oil regions, and the heart of the great anthracite coal fields of this commonwealth, the products of which find their way over the road to this port for re-shipment to other points by rail and lake. The Empire and Anchor lines operate over this road between the Eastern seaboard cities and the Western ports. Among the manufactories—of which there are many—we would favorably mention the establishment of Stearns, Hill & Co., a mammoth concern in their branch of business. They have gained a reputation both here and abroad for the manufacture of all kinds of saw mill machinery, &c., which is not surpassed. The gigantic buildings of the Jarecki Manufacturing Co. attract the eye. Their increased business has compelled them to erect new buildings of large proportions and imposing appearance. The whole is admirably apportioned for the various branches of their business. Their specialty is malleable iron, steam, gas and water fittings, oil well supplies and brass work for steam engine builders, plumbers and gas fitters; when fairly under way they intend to employ from two to three hundred men. We would also mention the Erie Wooden Ware Co. and Messrs. Johnson, Black & Co., stove manufacturers. Erie also contains a blast furnace, eight newspapers, ten banks, &c.

PITTSBURGH, Pa.

All kinds of Framing Lumber, Siding, Floor-
ing, Shingles, Lath, &c., delivered to
order at short notice.

THE NEW PATENT SASH ADJUSTER & LOCK, COMBINED.

Ventilation may be had by elevating one of the
Sashes, and lowering the other at the same time, by
their own counter-balance. The graceful and easy
manner with which either one or both Sashes can be
controlled by the cord and pulleys, warrants its suc-
cess. By means of the cords, the Sashes are securely
locked.

Gettysburg, Adams Co.

This place is ever to be remembered as the scene of one of the fiercest battles in the late Rebellion. It is situated upon high ground, and here the combined forces under Generals George G. Meade, of the Union Army, and Robert E. Lee, of the Confederates, met in an engagement lasting three days, Thursday, Friday and Saturday, July 1st, 2d and 3d, 1863, completely routing the army of the latter. There is located here a Seminary, College, Insurance Co., Building Association, a weekly Newspaper, a Mineral Spring, Gas Co., two Banks, &c. It is on the Hanover Branch, and Susq. Gettysburg & Potomac Railway; 77 miles from Baltimore and 68 from Harrisburg. Pop. 3,100.

Harrisburg, Dauphin Co.

Was made the Capital of the State in 1812.
Incorporated as a city in 1860. It has a beau-
tiful and healthful situation on the Susque-
hanna. It is on the main line of the Penn-
sylvania Central R. R., 106 miles from Phil-
adelphia and 248 from Pittsburg; 59 miles
from Auburn on the Schuylkill and Susque-
hanna R. R.; 74 from Hagerstown on the
Cumberland Valley R. R.; 85 from Balti-
more on the Northern Central R. R., and 54
from Reading on the Lebanon Valley R. R.
Its great railroad facilities for travel and
freight, together with the canal and river,
and the vicinity of the city to large beds of
coal and iron ore, give it an almost un-
equaled position for trade and manufac-
tures. It has four enterprising daily, and sev-
eral weekly newspapers, six or seven banks,
etc. There are extensive furnaces, foundries,
rolling mills, machine shops, car shops, brew-
eries, flour mills, saw and planing mills, cot-
ton mills, and establishments for the manu-
facture of carriages, boilers, nails, hardware,
bricks, burr millstones, etc., etc., Popula-
tion over 25,000 and rapidly increasing.

**THE NEW PATENT
SASH ADJUSTER & LOCK,
COMBINED.**

Ventilation may be had by elevating one of the Sashes, and lowering the other at the same time, by their own counter-balance. The graceful and easy manner with which either one or both Sashes can be controlled by the cord and pulleys, warrants its success. By means of the cords, the Sashes are securely locked.

Pittsburgh, Allegheny County.

is situated at the junction of the Allegheny and Monongahela rivers, which here form the Ohio, 357 miles west of Philadelphia, 477 north-east by east of Cincinnati, and 223 miles n. w. of Washington. It is the western terminus of the Penn. Central, the n. w. terminus of the Pittsburgh & Connellsville; the southern terminus of the Allegheny Valley; the south-eastern of the Erie & Pittsburgh and the Cleveland & Pittsburgh; the northern terminus of the Bellaire & Pittsburgh, and the eastern terminus of the Pittsburgh, Fort Wayne & Chicago; and the Pittsburgh, Cincinnati & St. Louis railroads. The manufactures of Pittsburgh are immense and varied, embracing glass, boilers, carriage axles, porcelain, steel, iron foundries, tools, shovels and axes, oil refineries, nail kegs, white lead, plows, stoves, iron, brass foundries, cotton, woolen, hoop iron, steel rails, steel springs, car wheels, and hundreds of other branches of trade. It has 52 banks, about 40 newspapers and magazines, &c. Population said to be about 200,000. This, however, includes Allegheny City, Manchester and Birmingham, which are directly across the river, and which may be called suburbs of Pittsburgh.

**J. P. CUNNINGHAM,
LUMBER DEALER,**

2d Ave., 23d Ward,
PITTSBURGH, Pa.

All kinds of Framing Lumber, Siding, Floor-
ing, Shingles, Lath, &c., delivered to
order at short notice.

**THE NEW PATENT
SASH ADJUSTER AND LOCK
COMBINED.**

Ventilation may be had by elevating one
of the Sashes, and lowering the other at the
same time, by their own counter-balance.
The graceful and easy manner with which
either one or both Sashes can be controlled
by the cord and pulleys, warrants its suc-
cess. By means of the cord, the Sashes are
securely locked

Pottsville, Schuylkill Co.

Is the northern terminus of the main line of the Philadelphia & Reading R. R., 93 miles from Philadelphia. It is also the southern terminus of Mt. Carbon, Mt. Carbon & Pt. Carbon, and Mahanoy & Broad Mountain Railroads; also the western terminus of Mountain Link & Schuylkill & Schuylkill Valley Railroad. Population 15,000. It is remarkable for the picturesque beauty of its situation and the immense trade of coal, of which it is the centre. The ground is uneven and rises so abruptly in places that building sites could only be obtained after leveling the mountain or walling the river. Above the junction of the streams, Schuylkill river and Norwegian creek, the valley widens, and affords space for several streets, some of which are quite level. Real estate commands a good price, and the city is making rapid advances. By means of its mineral resources, this region has become one of the most populous parts of the State. It has eight banks, a gas company, two daily and six weekly newspapers, two insurance companies, and several large machine shops, rolling mills, iron furnaces and other manufactories.

Reading, Berks Co.,

Crossing of the main line of the Philadelphia & Reading R. R., and the East Pennsylvania & Lebanon branch; also the north-eastern terminus of Reading & Columbia, and the northern terminus of the Wilmington & Reading Railways. It is 58 miles from Philadelphia and 54 from Harrisburg. The city stands on a plain which rises gradually from the river, and is inclosed on the east by an eminence named Penn's mount. It is compactly built, and intersected by straight and rectangular streets. It is a place of very active trade, and the market for a rich and populous agricultural district. It is also largely engaged in the manufacture of iron, steam engines, etc. It is said to rank the third city in the State as a manufacturing point. It has 4 banks, a gas company, 13 newspapers, &c. Population about 37,000.

**THE NEW PATENT
SASH ADJUSTER & LOCK
COMBINED.**

Ventilation may be had by elevating one of the Sashes, and lowering the other at the same time, by their own counter-balance. The graceful and easy manner with which either one or both Sashes can be controlled by the cord and pulleys, warrants its success. By means of the cords, the Sashes are securely locked.

TOWANDA MUSICAL ACADEMY

EDGAR H. SHERWOOD, Principal.

This Music School is classified into three departments, viz: Preliminary, Primary and Advanced. There will be a certificate given at the completion of each course with the musical standing of the pupil.

Pupils from a distance will find accommodations for board and piano practice in the institution at very moderate prices.

NOTICE—Mr. Sherwood has a progressive course comprising the best modern methods, including the prominent features and appliances of the once popular Lyons Musical Academy, of which his brother, Rev. L. H. Sherwood, was formerly principal and proprietor.

PUPILS WILL BE RECEIVED AT ANY TIME AT THE FOLLOWING RATES:

Piano Forte pupils, per quarter, \$15.00. Cultivation of the Voice, \$15.00. Including Harmony and Vocal Class per quarter, \$20.00. Cultivation of the Voice and Piano, \$25.00.

STRICTLY HALF QUARTERLY IN ADVANCE.

Recitations twice a week. No deduction or "time made up," except in case of sickness of more than one week's duration.

Wilkes-Barre, Luzerne Co.

Is the county seat, and is situated on the east bank of the Susquehanna river, in the centre of the historic valley of Wyoming. It was originally laid out in 1772, was incorporated a borough in 1806, and a city in 1871. Its first settlers were principally from the State of Connecticut, and its early history abounds in records of hardships and dangers to which nearly all the settlements of central and western Pennsylvania a hundred years ago were subject. The valley was a favorite hunting ground of the Indians, who were ever jealous of the encroachments of the whites, their atrocities finally culminating in the terrible massacre of Wyoming in 1778.

Its increase in population was slow, and its wealth derived almost entirely from its rich agricultural districts, until about twenty years ago, when the vast beds of Anthracite coal, upon which it stands, began to be rapidly developed, and now it ranks among the first of the inland cities of the State.

The town has a fine location, although it was originally laid out with little care as to the accuracy of its surveys. It was a village of farmers, who were not as ambitious as their descendants.

The Court House and County Prison are located here, the latter a fine and costly structure of stone, while the former, however convenient it may be, is architecturally an imposition on the generally good taste of the citizens of the county. Its churches are numerous and commodious; its hotels modern and well served, and its public schools graded and largely attended. It has an abundant supply of pure water from the mountains, and its streets, noted as being among the best paved and cleanliest in the commonwealth, are well lighted at night with gas.

The city is subdivided into fifteen wards, and is governed by a mayor and one general council of twenty-one members. It has a paid fire department, and a very efficient police force.

The city is situated in latitude 41 deg. 14 min. 59 sec. north, and longitude 1 deg. 10 min. east from Washington. It is connected with Philadelphia and New York by the Lehigh Valley and the Lehigh & Susquehanna Railroads, being 143 miles from the former, and 175 miles from the latter city.

The combined thickness of the coal beds in this part of Wyoming Valley is eighty feet. These beds will yield one thousand tons of merchantable coal to an acre for every foot in thickness, or a total of 80,000 tons to every acre. An idea of the actual value of coal lands can be formed from these figures.

In 1860 Wilkes Barre contained a population of 4,259; in 1870, then a borough, its population was 10,223; in 1871, when it became a municipality, its contracted limits were enlarged to include its suburbs, giving it now a population of about 18,000.

Williamsport, Lycoming Co.

Is on the Philadelphia & Erie Railroad, 93 miles from Harrisburg, 178 from Baltimore, 203 from Philadelphia, and 248 from Erie. It is also the northeastern terminus of the Catawissa Railroad, and the southern terminus of the Northern Central. This beautiful and flourishing city is delightfully situated on the west branch of the Susquehanna River, and possesses rare attractions for the capitalist or private individual, either of which seeking a place for investment, or a home amidst fine surrounding scenery, will find it here. The city is well laid out and handsomely built up, embracing large and commodious stores, and elegant private residences, and is one of the best locally governed cities in the State. Of late years, it has increased very rapidly in size, importance and population, it now having nearly 18,000 inhabitants. Its manufactures are varied and extensive, comprising about every branch of trade. To particularize any of the enterprising firms would be invidious. The lumber trade is immense. The quantity and value manufactured and shipped in 1870 was 250,764,078 feet, valued at \$4,513,753.40. It has a gas company, water works, ten banks and banking institutions, and several daily and weekly newspapers.

THE NEW PATENT

SASH ADJUSTER & LOCK
COMBINED.

Ventilation may be had by elevating one of the Sashes, and lowering the other at the same time, by their own counter-balance. The graceful and easy manner with which either one or both Sashes can be controlled by the cord and pulleys, warrants its success. By means of the cords, the Sashes are securely locked.

The second city in size in the United States, and the commercial metropolis of the State; situated between and about six miles above the confluence of the Delaware and Schuylkill rivers; by river and bay, 96 miles from the ocean, 136 miles northeast of Washington, and 90 miles southwest of New York.

The compact portion of the city occupies the narrowest part of the peninsula, about two miles in width, formed by the two rivers, but widens somewhat in the shape of a druggist's mortar north and south of Market, its central street. The site is nearly level, except perhaps a gentle decline towards either river, sufficient for good drainage. The ground, however, ascends towards the north, furnishing beautiful drives and fine sites for villas and country seats, particularly on the banks of the Schuylkill and Wissahicon rivers. The suburbs, Kensington on the north, and West Philadelphia, Hamilton and Mantau, west of the Schuylkill, are thronged with beautiful cottages and handsome residences of persons doing business in the city. The plan of the city, as laid out and settled by Wm. Penn, accompanied by a colony of English Friends, or Quakers, in 1682, consists of ten streets extending from river to river, crossed at right angles by twenty-five others. Market street, 100 feet wide, running east and west, and Broad street, 113 feet wide, running north and south, divide the plot into four nearly equal portions. About the Centre of each of these divisions, a public park, usually from six to eight acres in extent, is reserved, as well as one at their intersection, which is subdivided into four smaller squares. A number of new streets have been opened, of various lengths, between original streets, mostly short and often narrow. The cross streets number west from Delaware to Schuylkill, and are named First, Second, Third, Fourth, etc. The plan of the old city is generally continued in the newer portions, both north and south. In the suburbs are some spacious avenues and streets, particularly on the north and west. The densely populated portion of the city covers an area of about nine

square miles. The great bulk of the business is transacted between Vine and Spruce, east of Ninth street. The focus of this business is in Market and Chestnut, east of Ninth. Here are the Exchange, Custom House, Post Office, the most important banks, insurance offices, warehouses, etc., etc. Third street, between Market and Walnut, is the brokers' and money dealers' quarter. South of Market and west of Seventh is the fashionable residence quarter, and is thronged with spacious and elegant residences, built of sandstone, granite, marble and fine pressed or stuccoed brick, everywhere affording evidence of affluence, taste and luxurious ease and comfort. Arch street, north of Market, is one of the widest in the city, and is perhaps not inferior to any in point of architecture and the respectability of its residences. In addition to the five squares enumerated in the general plan of the city, there is but one other in its densely populated part, that of Independence square, in the rear of the State House. Out beyond Fairmount Water Works, (themselves forming a delightful promenade with a fine view from the basin,) on Lemon Hill, a beautiful park has been laid out. The grounds are extensive and possess a great variety of surface, affording delightful drives, and commanding picturesque views of the scenery of the Schuylkill.

The public buildings and principal objects of interest to persons visiting Philadelphia, are—first, Girard College, considered the finest specimen of Grecian architecture in the United States, situated about two miles northwest of the State House. The next most prominent public building is the Custom House (formerly the United States Bank,) a fine Doric structure on Chestnut street, built on a raised platform 161 feet long by 87 feet wide and ornamented on both the Chestnut and Library street fronts by a noble colonnade of eight fluted Doric columns, 27 feet high and four and one-half feet in diameter; original cost about \$500,000. The United States Mint, extending from Chestnut to Olive street; cost about \$200,000. The Merchants' Exchange, at the intersection of Walnut, Third and Dock sts. The State House, erected between the years 1729 and 1734, a plain brick building of venerable aspect, situated on Chestnut street in front of Independence Square, between Fifth and Sixth Sts., is the first object sought out by intelligent visitors. In the east room of this building, (a cherished object with Philadelphians and a National political shrine,) sat the congress that issued July 4th, 1876, the Declaration of Independence. Though plain in its exterior, its heavily wainscoted walls and quaint carvings give it an interest independent of its history. The furniture for the most part remains the same as when the Continental Congress here sat for its deliberations. Here is the bell that, from the top of the State House, first rang forth the peals of American liberty, also a portion of Washington's church pew, and numerous historical paintings and relics of Revolutionary times. On the Delaware river, about one and one-half miles south of the State House, is the United States Navy Yard, occupying an area of twelve acres.

Among the stores, banks, warehouses and hotels of Philadelphia are to be found some of its finest architectural ornaments. In the business parts of Market, Chestnut and

Walnut streets, and in the cross streets in that portion of the city, are a large number of insurance, canal, and railroad companies' offices, besides a multitude of stores with ornamented fronts, a large portion of which are of granite, marble, sandstone or iron, in different styles of architecture; of those most likely to attract the attention of strangers are the magnificent new building of the *Public Ledger*, southwest corner of Sixth and Chestnut; Phila. Inquirer building, Chestnut near Third; and *The Press*, building cor. 7th and Chestnut; Dr. Jayne's eight story Quincy granite building, with a front of mixed Moorish and Spanish orders, in Chestnut street, below Third; the Masonic Hall, of red sandstone, in a fine style of Gothic; the Continental Hotel, at the corner of Chestnut and Ninth, one of the largest and most admirably furnished hotels in the United States; the Girard House, directly opposite, with its imposing sandstone front of six stories; and the Assembly buildings, the Academy of fine Arts, the Sunday School Union's new building, with its ornamental front of Quincy granite; Concert Hall, and the United States Mint—all on Chestnut street. The New Masonic Temple on Broad street, near Market, will be, when completed, a most magnificent structure.

In enjoying and studying the many attractions of Philadelphia, a prolonged stay of days, and even of weeks could be most profitably spent. Of the objects to see and the places of interest to visit, are the nearly 400 church edifices, of various denominations; the cemeteries, especially the North and South Laurel Hill, on the Schuylkill, four miles north-west of the State House; the Fairmount Water Works, second only to the Croton Water Works of New York; the Gas Works, the prisons and penal, and the benevolent and charitable institutions; the libraries, colleges and literary institutes, and the public schools.

To attempt to enumerate within our limited space the various commercial and manufacturing interests of Philadelphia, as of New York City, would be but to confuse the reader, and at best only imperfectly show the chief industrial pursuits, and the many sources of wealth to her citizens. The amount invested in her manufactures alone exceeds one hundred million dollars: and in commerce she has but one or two rivals in the United States.

Philadelphia has in all 31 National banks.

By permission, and at the request of a number of our esteemed patrons, we publish the following letter. Please read it.

HUDSON, N. Y., March 20, 1871.

MESSRS. WM. RENNE & SONS—Dear Sirs: You do not recommend your Magic Oil for Catarrh. You ought to, as my own experience proves. It was an accidental (or providential) discovery. The case was aggravated and peculiar, and the cure speedy and perfect. If you need any voucher for me, I refer to your agents in this city, and to Hon. H. W. Rogers and J. W. Hoysradt, former Mayor of Hudson.

Respectfully yours,

CHAS. W. TOMLINSON,
Pastor First Universalist Church, Hudson.

Steady, Profitable Employment.

Those wishing to become Agents for the sale of our profusely illustrated, cheap, and very saleable publications, should send for circulars and terms at once. Our books are of a useful and sensational nature. Command a rapid sale. Everybody buys them. **LARGE PROFITS REALIZED.** Better inducements offered to agents than by any house in American. Men once entering our employ succeed so well that they continue with us the year round.

DECKER BROS.

AND

G. A. MILLER & CO'S

PIANOS,

Essentially different in construction from all others.
 The effect is wonderful.

The superiority in purity and power of tone is so
 striking that nobody can remain in doubt about it
 who sees and hears them once. Purchasers will
 find it to their interest to examine them before
 buying elsewhere, at

THE NEW PATENT SASH ADJUSTER AND LOCK COMBINED.

Ventilation may be had by elevating one of the Sashes, and lowering the other at the same time, by their own counter-balance. The graceful and easy manner with which either one or both Sashes can be controlled by the cord and pulleys, warrants its success. By means of the cord, the Sashes are securely locked

Beauty Leads Men in Chains.

DR. GOURAUD'S
ORIENTAL CREAM;
OR, MAGICAL BEAUTIFIER.

This preparation has acquired a reputation which makes it sought after by ladies coming from or going to the most distant countries; for it has no equal or rival in its beautifying qualities, and in its marvelous power in removing

Tan, Pimples, Freckles, Sun Burn, Sallowiness, &c., &c.

Like all other of Dr. Gouraud's preparations, it has increased its sales until it has become a specialty from its own merits, and is not the creation of mere advertising notoriety. It is recommended from one customer to another, on actual knowledge of its actual value, utility and innocence. Prepared and sold by Dr. T. FELIX GOURAUD, 48 Bond Street, New York. To be had in Boston of GOODWIN & CO., Patent Medicines, 38 Hanover St.; WEEKS & POTTER, Druggists, and Traders generally throughout the United States.

The Largest Pump Manufactory in the World.

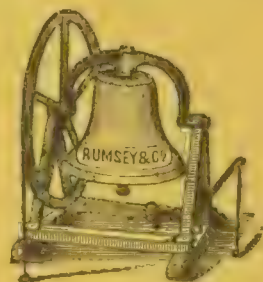

RUMSEY & CO.,

SENECA FALLS,

New York, U. S. A.

NEW YORK MANUFACTURING NEWS.

"The Catalogue of Rumsey & Co., of Seneca Falls, N. Y., embraces over 800 different styles and sizes of Lift and Force Pumps. They are now turning out 1500 Pumps per week, which range in price from \$3 to \$400, employing 130 hands. John A. Rumsey has recently patented an improved galvanized non-corrosive cast iron Pump, which is safe from rust. There is also on their list Sad Irons, Skeins and Boxes, Green House, Garden and Fire Engines, Hose Carriages, Hose Carts, Hose, Steel Almagam Bells, Cider Mill Screws, Jack Screws, Sinks, &c. The machinery in Rumsey & Co.'s Factory, is of the most efficient kind—much of it being of their own invention, and is driven by an unfailing water power. They are now building a new factory, 84 by 42 feet, and 4 stories. When this is completed they will increase their working force to 250 hands. The business now carried on by this firm was established by Rumsey about 30 years ago."—COMMERCIAL BULLETIN, BOSTON, MASS.

An Office will be opened in Williamsport during the Year.

Attention of merchants and manufacturers in Pennsylvania, is directed to the fact that "The Mercantile Agency" has now

Four Branch Offices in this State,

employing a large local support, and as a consequence, is very efficient. This, in addition

Fifty-Two Offices in Various Parts of the Country,

indicated in the list below, enables us to offer to parties seeking information, facilities of the Most Perfect Kind.

We supply information in detail as to the capital, character, credit, and general standing of merchants, manufacturers, traders, &c., &c., throughout the country. In Pennsylvania and neighboring States, we are particularly well posted; almost every county in the State is regularly visited semi-annually by our own reporters, and by them and by the aid of our correspondents at all points, we aim to perfectly deguerreotype the local impression of every locality regarding traders therein.

We issue Reference Books, in January, March, July and September, containing the names and addresses of every business man in the United States and Canada, indicating their capital and credit. Also pocket editions for the use of travelers in each State. These markings are based upon reports in detail which are furnished on application to subscribers.

For Terms and Conditions Apply to

the above address, or to R. G. Dun & Co., Albany, Chicago, Boston, Dayton, Dubuque, Rapid, Evansville, Mobile, Columbus, Galveston, Davenport, Indianapolis, Kansas, Newark, Providence, Quincy, St. Joseph, Syracuse, Troy, Utica, Baltimore, Rochester, Cincinnati, Hartford, St. Louis, Buffalo, Richmond, Milwaukee, New Orleans, Louisville, Norfolk, Memphis, Charleston, Detroit, Toledo, Cleveland, San Francisco, Portland, O., London, (England,) Paris, France.
